

SOFTWARE RELEASE NOTES

MCS-CONNECT **Version 18.22.20** **10/25/2018**

Updates from previous versions:

New Features:

1. The main feature of this new release is the new Diagnostic Save UI that allows the user to print diagnostic saves of multiple controllers from the Info screen. It also allows the user to select what features the diagnostic save performs.
2. Optimized the graphics package to improve the user interactions with XML graphics (speed ups). and gauge notifications
3. Hiding passwords in the alarm alert setup popup
4. New Operator type Comp Wanted Speed in User Defined Sis
5. Added new EXV headers for new EXV Fast SH states

Bug Fixes:

1. This release also fixes the issue of displaying the exception popup with the alarm info after transmitting a new config.
