

March 2017

Announcement

Dear Customers:

This is to inform you that TWO (2) models in the RC2 series: 'RC2-320 and RC2-430' have been phased-out as of March 1st, 2017. This is due to their duplicated capacity with RC2-310 and RC2-410.

The materials of these compressors will be discontinued except the regular spare parts for maintenance.

In the future if a compressor replacement is necessary, please order the alternative models of RC2-310 and RC2-410 with similar cooling capacity and minimum piping rearrangement.

The electrical components already used for models RC2-320 and RC2-430 models can be used when switching to RC2-310 and RC2-410.

Please see a reference table of discontinued model and its alternatives below:

	Model	Capacity Control	Lubricant Charge(L)	Flange Size	Weight (kg)	Dimension
Discontinued	RC2-320	Step or Stepless 25%-100%	16	S:3" D:2"	(A)600 (B)595	Please refer to outline drawing attached
Alternative	RC2-310	Step or Stepless 25%-100%	14		(A)565 (B)570	
Discontinued	RC2-430	Step or Stepless 25%-100%	16	S:4" D:2 1/2"	(A)735	
Alternative	RC2-410	Step or Stepless 25%-100%	16		(A)730 (B)740	

Note: S: Suction flange D: Discharge flange
