Uninstall Directions for Windows.

The following will work on any windows based PC, including the MCS-touch-PCs. Please note if you are working on an MCS-Touch-PC you will need to go through the unlock procedure before getting started.

1. Double click on “My Computer” link on the Desktop.
2. Double click Local Disk (C:).
3. Double click on the Program Files folder.
4. Double click on the MCS folder.
5. Double click on the MCS-Connect folder.
6. Double click on the “unins000.exe” icon, this will start the uninstaller.
7. There will be a pop up asking “Are you sure you want to completely remove MCS-Connect and all of its components?”. Click “Yes”.
8. There will be a status bar as MCS-Connect uninstalls. Once completed there will be a pop-up “MCS-Connect was successfully removed from your computer.”. Click “OK”.
9. Uninstallation is now complete.
10. You can proceed to reinstalling the latest version of MCS-Connect.
11. If this was done on an MCS-Touch-PC you must relock the touchscreen after reinstallation of MCS-connect.

Uninstall Directions for Linux

This will only work on the MCS-Touch 15.4. You must first unlock the touchscreen

1. Double click on MCS TOOLS
2. Click on the dropdown arrow next to Places
3. Select Directory Tree
4. Click on Ubuntu under directory tree
5. Double click on the MCS-Connect folder
6. Double click on the Uninstaller folder
7. Double click on uninstaller.jar wait a few seconds there is a bit of a delay.
8. Click on uninstall
9. When it says [Finished] in the grey bar click Quit
10. Now you can reinstall MCS-Connect for Linux.
11. After you re-install MCS connect re-lock the touch screen.
