## Case Study, December 2017

# Wells Fargo Center

Philadelphia, Pennsylvania

Concerns: Older Controls on Chiller, some problems with controlling ice **below floor on warmer days.**

Steps Taken: New MCS Enclosure with **Magnum N., new sensors, etc.**

Results: MCS controls have proven in the past to be reliable in the controlling of critical aspects of keeping the temperature in a building where the hardwood floors are laid directly over the ice. (Boston Gardens, 2015, upgrade Carrier 19XL with MCS controls)
