

2018

MCS Training Schedule

Providing HVAC/R Control Solutions Worldwide

MCS-Magnum Controls & Hanbell Training with optional Yaskawa VFD Training*

Micro Control Systems will be holding training classes on its product lines. These classes will be three days in-depth hands-on workshops that will enable attendees to have a working knowledge of MCS-Magnum hardware and software and Hanbell compressors. Attendees will learn how to use MCS-Connect software to communicate with MCS hardware and learn troubleshooting techniques that will be useful in the field.

A Windows-based laptop with a USB communication port will be required for class.

Lunch will be provided daily.

If you are interested in attending, please fill out the attached form on page 2 of this pdf and email to: sales@mcscontrols.com.

Once we receive your application we will contact you concerning costs and details.

Local expenses are the responsibility of the attendees.

Class Content

- Introduction to MCS Products and Services
- Magnum Hardware
- Magnum Keypad/ Display
- MCS-Connect
- Magnum Chiller Software
- Magnum Loop Water Software
- Magnum BMS Communications
- Hardware Troubleshooting
