For Immediate Release

Micro Control Systems announces . . .

New 10.1 Touchscreen

New Waterproof
Silicone Seal for areas
subject to weather, etc.

The MCS-TOUCH-10.1 joins the family of touchscreens from MCS which are available for mounting in control enclosures or used as a stand-alone touchscreen.

Information and graphics on the MCS-TOUCH-10.1 are shown on a 10.1" high resolution (1280x800) LCD display with LED back lighting, which will guarantee long-life operation.

Utilizing a gasket for an environment seal provides the MCS-TOUCH with a NEMA4 rating. **Depending on the Box Enclosure you choose, an installation can be either indoor or outdoor.**

A NEMA4 Box Enclosure must be used for outdoor installation or for areas that are subject to water wash-down or extreme harsh environments. The MCS-TOUCH temperature range is -20°C to 70°C / -4°F to 158°F.

The MCS-TOUCH-10.1 comes preloaded with the MCS-CONNECT program that allows you to view the 'unit's status', 'extended history', 'alerts', 'alarms', setpoints, and more, all in a user-friendly graphic format. Also, with a proper authorization code, changes can be made to the setpoints, sensor offsets, schedule, etc.

Parts Included

- 50W Single Output Power Supply
115-230 VAC input (+-15%)
12VDC output regulated
Resistant to short circuiting, overloading,
and over voltage. Operating
temperature up to 70 °C
- 7ft CAT 5e Crossover Patch Cord, Orange

Option

Vesa Mount Arm
if using without
an enclosure

MCS-MAGNUM-MLB-7

MCS-MAGNUM-MLB-10.1

MCS-MAGNUM-MLB-15.4
