

SOFTWARE RELEASE NOTES

MCS-CONNECT **Version 18.22.20** **10/24/2018**

Updates from previous versions:

New Features:

1. New Diagnostic Save UI that allows the user to print diagnostic saves of multiple controllers from the Info screen. It also allows the user to select what features the diagnostic save performs.
2. New Operator types in the User Defined Sis.
3. New EXV headers for new EXV states.
4. Hiding passwords in the alarm alert setup popup.

Bug Fixes:

1. the issue of displaying the exception popup with the alarm info after transmitting a new config.
2. Optimized the graphics package to improve the user interactions with XML graphics(speed ups and gauge notifications).
