

SOFTWARE RELEASE NOTES

MCS-CONNECT
Version 9.03K
08/08/2012

Updates from previous versions:

New Features:

1. Adding new dynamic values to Graphic Loader.
2. Adding another list box to the Network tab in the Communication Setup User Interface to display ALL the interfaces on the user's computer. This list box is only visible when a user selects a check box.
3. Adding Network interface selection code to Lantronix Connection type
4. Created new mode selection types for and config type new ACU V11.
5. Added a new field for ACU V11 config type.
6. Adding ACU V11 code to Magnum V11.
7. Adding a check of the Logging Enabled field in the main screen to all of the Logging class to ensure that the user can determine whether or not they want to log errors to an external file. Plans in place to add functionality to location option of Logging Panel in Communication Setup UI.

Bug Fixes:

1. Initialized new drop downs in UserDefinedROControlUI for lwc cfg type
2. 9.03K-008-raj 08/03/12 Changing 3 sensor names from TI-xxx to MCS-xxx per BWW
3. Print function was trying to print 1 too many columns when printing Status grids for REF cfg type. Added a check to ensure that it only prints shown columns.
