## MCS-Magnum Controls & Hanbell Training

Learn from the experts  
at MICRO CONTROLS  
See whats new and  
in development  
for the future

Micro Control Systems will be holding training classes on its product lines. These classes will be three days in-depth hands-on workshops that will enable attendees to have a working knowledge of MCS-Magnum hardware and software and Hanbell compressors.

Attendees will learn how to use MCS-Connect software to communicate with MCS hardware and learn troubleshooting techniques that will be useful in the field.

A Windows-based laptop with a USB communication port will be required for class. Lunch will be provided daily.

If you are interested in attending, please fill out the attached form on page 2 of this pdf and email to: [sales@mcscontrols.com](mailto:sales@mcscontrols.com).

Once we receive your application we will contact you concerning costs and details.

*Local expenses are the responsibility of the attendees.*
