

The Control Zone

Total Solution for all your Control Needs

Volume 9- Issue 2

December 2023

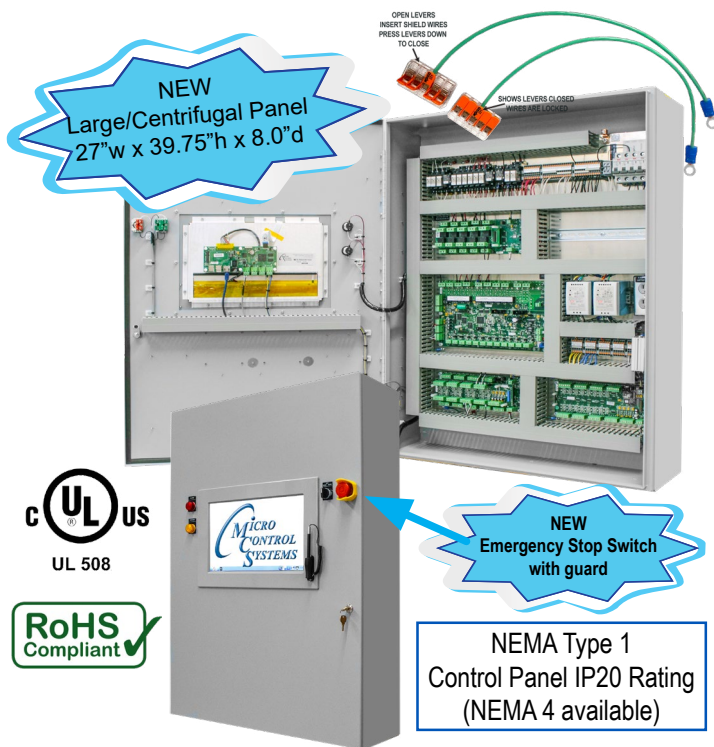

From the Desk of the President:

Many new exciting developments have taken place at MCS during 2023. We added new sales personnel to focus on expanding our products within the United States and increasing our presence worldwide. Newer products are being developed, products proven over the years are being updated to the changing HVAC industry. Our employees, who have been with us for many years, continue to serve our customer base worldwide, as MCS continues to hire new engineers, support technicians, and manufacturing personnel to handle the increased sales, yes, 2023 was a good year for MCS.

Year in review, 2023 . . .

MCS is excited to announce larger UL508A Industrial Control Panels. The panels have been built with the contractor in mind, with newer power supplies and additional expansion room.

These panels incorporate the NEW MCS-SHIELDWIRE-GROUNDING multi-terminal connectors for attaching sensor inputs to earth ground in the panel box.

Products in 2023

Delivering our products and services on a global scale, we provide a diverse lineup of offerings.

This includes MCS controls, Hanbell compressors, industrial enclosures, an extensive array of temperature, pressure, humidity, and current sensors, and our MCS Connect software, enabling users to monitor, interact with, and optimize their systems from any corner of the world.

Support for Hanbell compressors

If you are installing a new compressor, now is the time to check out the latest in Hanbell compressors and the newer Magnet Bearing Compressors.

MCS supplies firmware and software, along with newer Variable Frequency Drives to handle these new compressors

MCS Industrial Enclosure	NEW BOX SIZES
SMALL	18.2" Wide x 24.75" High x 8" Deep
MEDIUM	23.5" Wide x 31.15" High x 8" Deep
LARGE/CENTRIFUGAL	27" Wide x 39.75" High x 8" Deep
