## A BMS GATEWAY is needed to support the following protocols; BACnet IP, Modbus IP, BACnet MS/TP, Johnson N2 and LonTalk

*Affects MCS-MAGNUM controller only*

The MCS-MAGNUM controller no longer supports Bacnet IP nor Modbus IP directly but requires the use of the MCS-BMS-GATEWAY.

MCS-Config version 18.13 or greater is required to create the csv files for Bacnet IP and Modbus IP.

APP 0085 revision 7-18-2023 guides the user how to create, program and wire MCS-BMS-GATEWAY for Bacnet IP and Modbus IP.

The MCS-BMS-GATEWAY is available in the following configurations;

- MCS-BMS-GATEWAY - **NOT PROGRAMMED**, requires MCS-CONFIG version 18.13
- MCS-BMS-GATEWAY-P - **PROGRAMMED** by factory or OEM prior to shipping with all protocols.

Scan with phone for the latest information on the MCS-BMS-GATEWAY
