

MCS-SI8 End of Life Notification

Micro Control Systems is discontinuing production of its MCS-SI8 (including -24 and -230 options). MCS will continue to support all installations currently using MCS-SI8.

The replacement for the MCS-SI8 is the MCS-SI16. The MCS-SI16 dimensions and mounting are identical to the MCS-SI8. The only difference between the two parts is that the MCS-SI16 has eight additional sensor inputs.

The pricing for the MCS-SI16 is now lowered from \$400 to \$380 (same price as the MCS-SI8).

Any current or future orders received for MCS-SI8's will be shipped with the replacement MCS-SI16.

If you have any question please email Brian Walterick at bww@mcscontrols.com.
