MCS-WIRELESS-MODEM

Broadband Router with Integrated Verizon 4G/LTE Modem
(Only for use in USA)

The **MCS-WIRELESS-MODEM** is built for your network. It's a highly-featured, compact router designed for critical industrial applications that require 24x7 connectivity.

The router features a built-in high-speed Verizon 4G/LTE modem. Supplied with one year subscription to MCS Wireless Verizon Data Plan, 250MB per month.

The **WIRELESS-MODEM** is a powerful tool that is useful in locations where there is no readily available internet connection. Combined with the data plan, the **WIRELESS-MODEM** may be used to wirelessly connect to the **MCS-MAGNUM** wherever a cellular signal is found.

You will receive everything you need to setup communication with an MCS Controller, one year Verizon 250MB data plan and a crossover Ethernet cable to link the **WIRELESS-MODEM** to the MCS Controller board.

Package contains the parts shown on right:

Ethernet Cross Over Cable supplied

*Optional Accessories:
High-gain external antennas*

MCS also offers an MCS-WIRELESS-ROUTER

Broadband Router - No Modem

This router is ideal for users who like the idea of wireless connection but want to supply their own USB Broadband Modem and Data Plan.
