## MCS-WIRELESS-3G

**Broadband Router with Integrated Verizon 3G Modem**  
(Only for use in USA)

The **MCS-WIRELESS-3G** is built for your network. It's a highly-featured, compact router designed for critical industrial applications that require 24x7 connectivity.

The router features a built-in high-speed Verizon 3G EVDO modem. Supplied with one year subscription to MCS Wireless Verizon Data Plan, 100MB per month.

The **MCS-WIRELESS-3G** is a powerful tool that is especially useful in locations where there is no readily available internet connection. Combined with the data plan, the **MCS-WIRELESS-3G** may be used to wirelessly connect to the **MCS-MAGNUM** wherever a cellular signal is found.

You will receive everything you need to setup communication with an MCS Controller, one year Verizon 100MB data plan and a crossover Ethernet cable to link the **MCS-WIRELESS-3G** to the MCS Controller board.

*Package contains the parts shown on right:*

*Optional Accessories:  
High-gain external antennas*

### MCS also offers an MCS-WIRELESS-ROUTER

Broadband Router - No Modem

This router is ideal for users who like the idea of wireless connection but want to supply their own USB Broadband Modem and Data Plan.
