

SOFTWARE RELEASE NOTES

MCS-CONFIG Version 17.000 02/17/2015

Updates from previous versions:

New Features:

1. In ALL MicroMag configs on the Setup Info screen under the Default LCD Display location adding a new selection to the list called Scrolling Info that will be saved as the next index in the list #4.

Bug Fixes:

1. In ALL MicroMag configs on the Setpoint Info screen under the MAX ROC MAX Limit column if the Value column of that row is changed to a value above the MAX then the MAX ROC MAX Limit value is set to 0 and it should be set to the MAX value that can be set there. Resolution: Due to the memory location overlay the memory location was being set to 0 in another columns test. Commenting out the 0 memory assignment.
