

MCS Release Note

Product Type: MCS-Config Software Revision: 19.01.20

Release Date: September 24, 2025

Release 19.01.20 - Wednesday, September 24, 2025 Log:

Overall Summary:

- This release focuses on stability. We fixed a major configuration issue and addressed HVAC logic leakage causing conflicts. Minor label updates are also included.

Bug Fixes:

- Resolved an issue where installing MCS-Config could delete NUC Config.
- Corrected a problem where V19 heat recovery logic leaked into RTU, causing compressor RO sequence conflicts. Logic is now scoped to HVAC only.

Patches:

- Updated the label for multiple MB read/writes to a more accurate description in the V19 Modbus Points screen.
