

MCS Release Note

Product Type: MCS-Config Software Revision: 19.01.26

Release Date: January 7, 2026

BETA Release 19.01.27 — Wednesday, January 7, 2026 Log

Overall Summary:

- This beta release adds two new configuration capabilities: a Fluid Cooler Return Temp Pre-cooler toggle on the V19 HVAC Info Condenser screen, and a new bypass control type setting for PMGR Pump Groups to better control bypass behavior.

Features:

- Fluid Cooler Return Temp Pre-cooler option (V19 HVAC Info Condenser tab). Added a new panel on the HVAC Info screen's Condenser tab to enable/disable the Fluid Cooler Return Temp Pre-cooler option.
- Plant Manager Pump Groups: Bypass Control Type. Added a new Bypass Control Type setting to Pump Group functionality to configure bypass behavior.
- PMGR Info Screen UI updated to allow configuration of the new field. Control logic updated to honor the selected mode. Available options: None, Always On, and Manager Controlled
