

MCS Release Note

Product Type: MCS-Config Software Revision: 19.01.30

Release Date: February 13, 2026

Release 19.01.30 - Friday, February 13, 2026 Log:

Overall Summary:

- This release focuses on improving the reliability and stability of PMGR pump group configuration. Updates ensure control type selections are properly applied, saved, and maintained without affecting other system settings.

Bug Fixes:

- Improved Pump Group Control Type Handling: Resolves an issue affecting PMGR pump group control type selection and retention.
- Improves reliability when updating control type settings.
- Adds a default control type when none has been configured.
- Additionally, the "Stage Based on # of Chillers On" control option has been updated to ensure consistent behavior and prevent configuration conflicts.
- These improvements enhance system stability and ensure pump group control settings behave as expected.
