

SOFTWARE RELEASE NOTES

MCS-CONNECT
Version 17.16.00
06/14/2016

Updates from previous versions:

New Features:

1. Added a new feature to allow the user to save Live Graph setups and Live Graph Group Setups in the Live Graph Menu Item.

Bug Fixes:

1. Fixed a bug that was displaying the Min Max labels incorrectly in the setpoint Options popup.
2. Fixed a bug that was verifying the presence of EXVs incorrectly in the FLA popup.
3. Changed a function call in the Live Graph class to attempt to fix a bug and stabilize the check for Analog Sis.
4. When saving a screen setup Connect needed to check if the service window was created or not. This was preventing older cfg versions from saving new workspaces.
