SOFTWARE RELEASE NOTES

MCS-CONNECT
Version 17.15.02
06/03/2016

Updates from previous versions:

New Features:

1. **Added support for ACU Firmware to display the Info column in the alarm grid.**
2. **Added new columns to the EXV grid for the SSH PID option.**
3. **Added functionality to hide Alarm grid unless sufficiently authorized. Auth is set up in config.**

Bug Fixes:

1. **In the graphics model was not refreshing the setpoint values which was causing issues in the field. RESOLUTION - Added a refresh call in the function call to update setpoint ram.**
2. **Removed the task bar from the Auth popup to fix a bug in the Linux version that was allowing users to minimize the Dialog and lose it.**
