SOFTWARE RELEASE NOTES

MCS-CONNECT
Version 18.25.03
02/11/2019

Updates from previous versions:
New Features:

1. **Add new Modbus datatype - For the Modbus user config, under "Write General Outputs" window, add data type STARTUP MESSAGE defined as 0x08. (#define STARTUP_MESSAGE 0x08)**

Bug Fixes:

1. **Graphic Information screen is appearing randomly - The Graphic info screen is replacing the Tabular style info grid on random PCs. I was not able to determine how this was happening but i was able to disable the feature.**
