

MCS Release Note

Product Type: MCS-Connect Software Revision: 19.01.18b

Release Date: March 25, 2026

Release 19.01.18b - Wednesday, March 25, 2026 Log:

- Release 19.01.18b - Wednesday, March 25, 2026

Summary:

- Release 19.01.18b addresses critical system stability issues while enhancing BACnet MS/TP protocol support with new configuration options.

Bug Fixes:

- Corrected operand4 control type handling
- Fixed BACnet device ID serialization to use proper byte ordering in V19 RS485 configurations
- Resolved potential infinite hang when system RAM information is unavailable

Enhancements:

- Added BACnet MS/TP support with UI configuration fields for MAC Address and Device Instance ID
- Improved decimal display handling for Modbus RTU type devices
