

SOFTWARE RELEASE NOTES

MCS-MAGNUM Version 8.05B 03/22/2011

Updates from previous versions:

New Features:

1. Added a new check for process pumps; the pump must be ON before the Pressure Fault test is made.
2. Added the new sensor type: 'MODBUS'. It is the same as User Defined. Select this sensor type when using the Modbus I/O board. This option requires MCS-Config version 8.00-L and MCS-Connect version 8.10-F or newer.

Bug Fixes:

1. Corrected the capacity control state logic to display 'AMBIENT OFF' when a low ambient temperature occurs.
