

SOFTWARE RELEASE NOTES

MCS-MICROMAG

Version 4.00T

04/23/2013

Updates from previous versions:

New Features:

1. BMS SIs are now implemented.
2. Supply air velocity target. This adjusts the target reset for the duct static capacity control based off of supply air velocity.
3. Immediate update of history sample rate! No more needing to reset the MicroMag.
4. Immediate update of Baud Rate and communication protocol! No more needing to reset the MicroMag.
5. Ability to change baud rate for the 232 and the 485 from the keypad.
6. New Names for LLS! (note, LLS not fully functional yet).

Bug Fixes:

1. User can now see what their protocol and baud rates are.
2. Modbus comes back online after going offline.
